SUMMARY

As a full-stack developer, I strive to become an orchestrator of a symphony of technologies. With my determination to always find an easy way to the next, I tackle every problem with efficiency. My knowledge in front-end and back-end development also allows me to integrate technologies to build scalable solutions.

EXPERIENCE

Full-Stack Developer

Since 2022 - Now | Freelance

- Cultivated client relationships proactively
- Created full-stack web experiences for clients
- Regularly communicated with clients regarding specifications and designs
- Provided ongoing services to clients as needed or requested

SKILLS

Front-End Development

Javascript | HTML5 | CSS3 | SCSS | Bootstrap | TailwindCSS | JSX | React.js | Next.js | Inertia.js | Dart | Flutter | GetX | BLoC | Provider | Figma

Back-End Development

PHP | Laravel | Python | Django | SQL | MySQL | Golang | Gin | Swagger | RESTful API | C/C++ | Node.js | Express.js | NoSQL | MongoDB | Java

DevOps, Soft Skills, and Deep Learning

CI/CD | Git, Github, Jenkins, Docker | Linux | AWS | EC2 | Google Cloud | GCE | Firebase | Bug Googling | ChatGPT Prompts | Multilayer Perceptron | Long Short-Term Memory

PROJECT

Portfolio Website (On Going)

2023 - Now | React.js, Next.js, Tailwindcss

A unique portfolio website with a programming syntax style and a layout similar to version control like branches in GIT, with paragraphs grouped using naming conventions similar to React.js components, yet still easily readable by the general public.

Criminal Case Report Management System

2023 | Laravel, React.js, Inertia.js, Tailwindcss, MySQL

A web-based system that helps law enforcement reducing the time and effort required to manage criminal case reports by allowing authorized admins to enter, update, and manage cases of theft,assault,robbery,and homicide.

Padang Pariaman Rainfall Projection

2022 | Django, Tensorflow, Tailwindcss, Vue.js, SCSS, MySQL

A Thesis research website that helps simplify the tuning process of deep learning models using the Long Short-Term Memory method by allowing flexible setting of hyperparameters. With real-time monitoring of the learning process and storing the learning model in a database, enabling researchers to compare different models and accelerate their research.

DR Spices Global

2022 | Laravel, Livewire -> React.js, Tailwindcss, MySQL, Midtrans API

A website for e-commerce specializing in the export of spices from Indonesia to the world. The website features a checkout and payment process using the Midtrans API for transactions.

EDUCATION

University of Putra Indonesia YPTK Padang

2018 - 2022 | Bachelor of Computer Science

Major: Informatics Engineering
GPA: 3.6

KNOWLEDGE

Software Architecture and SDLC

Agile | Scrum | Distributed | Microservices | Waterfall | Monolithic | MVC, MVVM, N-Tier
